## Route 14 Extension To Be Cleared Oct. 1

COLUMBIANA — The path for the extension of the Route 14 by-pass from its junction with Route 46 at the northwestern edge of town to the present Route 14, about three-quarters of a mile west, will be cleared by Oct. 1. Buildings are being moved to make way for the State Highway Department to begin the work.

The residence of Miss Estella Easterly on Route 14, situated at the point which will be the western terminus of the extension, is being moved 100 to 150 feet back from its present location on the highway, along with two or three outbuildings. On the adjoining P. R. Corey farm the residence will not have to be moved, but the barn, corn crib and chicken house will be moved across the highway to the former Julius Heugel farm of 2 1/2 acres, which Mr. Corey purchased some time ago. He also bid in the buildings when they were offered at public sale by the state.

LESTER HARROLD is preparing to move the ten-room Gerry residence on Route 46 in Columbian to its new site adjoining his residence just north of town on Route 164.

An F84A thunderjet fighter bomber will be the big tree exhibit at the annual Columbian street fair and homecoming the last three days of next week. It will be sta-

tioned on S. Main St., near Railroad St., where it will be open for public inspection. The fighter's wings and the metal side panels will be removed, so that the plane's jet engine, flight controls and other intricate equipment may be open to view. The Navy Reserve from Youngstown will again have on display a model of the U.S.S. Youngstown, and the State Highway Department will also have an exhibit.

Fair Manager George Snook, immediate past commander of Firestone American Legion Post, sponsor of the fair since World War I, reports nearly all the space taken in the exhibit tent provided by the post for displays of merchants, manufacturers and organizations. The 40x180-foot tent will be set up again this year on Pittsburgh St. at its intersection with S. Main.

COLUMBIANA HIGH School Band will play Thursday evening, the Salem American Legion state champion band from 9:30 to 10:30 p.m. Friday, and a rube band of members of the former Columbian American Legion Band will play Saturday afternoon.

With the opening of school next Tuesday, all children south of Park Ave. who will be attending the new Joshua Dixon Elementary School will be transported to and from school by the school busses. Children living between Park Ave. and the Pennsylvania Railroad and between Vine St. and the Y. & S. Railway will walk to the High School building to get their bus. All other children south of Park Ave. will be picked up at central points near their homes between 8:25 and 8:50 a.m. Busses will leave the High School at 8:40 a.m.

Sales tax stamps were turned in toward the band uniform fund at a meeting of the music committee of the Parent Teacher Organization in the home economics room of the high school building Monday evening. Receipts have been placed in stores for the deposit of stamps by persons who may desire to aid the fund. The committee cleared \$30 on the dinner served in the new elementary school building last Saturday evening for the class of '39 of Columbian High School. Plans were discussed for future fund-raising projects.

The 34th annual reunion of the Lepply family will be held in pavilion 1, Firestone Park, Sunday beginning at noon.

Miami Club will have a bake sale at McCaughtry's plumbing store tomorrow for the benefit of the Women's Bowling League.

Police also confiscated the chapter's books, checks and minutes at the Caxton Building where Merriam had an office until last month.

Harry Volk, editor of the suburban Heights Sun-Press and president of the fraternity chapter, said he and other officers had tried for several weeks to obtain a full accounting of the funds.

Volk said it had been discovered that 40 newsmen paid their initiation fees in the last year, but never were enrolled as members in the fraternity's national office in Chicago. That represented a \$1,000 shortage.

Also missing was a \$1,400 fund set up to pay expenses when the chapter was host last November to the fraternity's national convention in Columbus. A \$300 hotel bill turned up yesterday and a number of other bills are unpaid, Volk said.

No charges have been filed. Merriam was not available for comment.

## Chemist's Body Found In Cave

### Milwaukee Couple Being Held In Case

LOUISVILLE, Ky. — The FBI said today the body of a man found in Mammoth Cave National Park had been identified positively as that of a vacationing Chicago chemist who had been missing since July 20.

Thomas J. Gearty, special agent in charge of the Louisville FBI office, said information provided by a young Milwaukee couple had resulted in finding the body. Both are being held.

The FBI in Chicago said the body had been identified as that of Lewis A. Finn, 72. He had been missing since July 20 when he left Palm Beach, Fla., to visit a brother in Yuma, Ariz.

Cause of death has not been established.

Gearty said information provided by Leonard LaFond, 20, and Jo Anne Severson, 18, resulted in finding the body. He added in a prepared statement:

"The body was found in the vicinity of the area named by LaFond and Miss Severson as the place where they disposed of the remains of 72-year-old Chicago chemist Lewis A. Finn."

LaFond and Miss Severson are being held on a charge of transporting a stolen automobile across state lines.

LaFond was arrested at Truth or Consequences, N. M., Aug. 20. Gearty said he was driving a 1948 Pontiac which had been traded for Finn's car at El Paso, Tex., Aug. 8.

Gearty said Finn's wallet and papers pertaining to Finn's car were found in LaFond's possession. Miss Severson was arrested at San Antonio, Tex., and is being held there.

## Massillon Girl, Mother Killed In Car Crash

FT. MILL, S. C. — An Ohio woman and her young daughter were killed and eight others injured yesterday when the car in which they were riding crashed broadside into a bus at an intersection near here, the state highway patrol reported.

Dead was Mrs. Russell Williams, 31, of (250 Hirsch St.) Massillon, and her three-year-old daughter, Linda Sue, who succumbed to injuries several hours later at York County Hospital, Rock Hill. Both were occupants of the car.

Seriously injured were Mrs. Williams' husband, Russell, 34, and Miss Rosie Petrucola of (315 Fifth St.) Dover, Ohio. Reported in critical condition at the hospital was Mrs. Dominick Pace of Dover. These three also were in the car.

In addition, four passengers on the Carolina Scenic Stages bus and the driver, Lonnie Ballard, were hurt.

## QUITS HIGH SCHOOL POST

ANDOVER, Ohio — Paul D. Koeppe quit yesterday as superintendent of Andover High School, a position he has held for 25 years.

## CIO, Ohio Bell Resume Talks

CLEVELAND — Bargaining resumed today between the Ohio Bell Telephone Co. and the CIO Communications Workers Union, which has set midnight as a deadline for reaching a settlement.

The union has threatened to strike unless an agreement is reached, but has not set a time for a possible walkout.

An Ohio Bell spokesman said he doubted that the union could legally strike on grounds it has not served proper notice for termination of the old contract, which was to have expired Aug. 21. The union however, contends it has complied

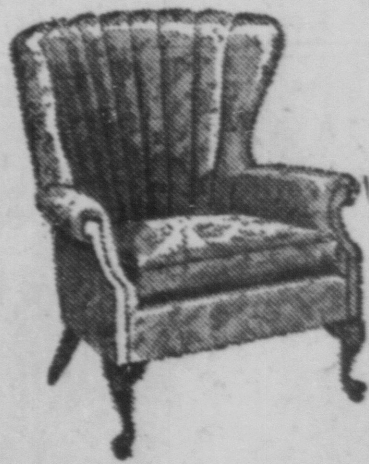

with all requirements for a legal strike.

The union last night turned down Bell's latest proposal to settle the wage dispute affecting 16,000 employees in Ohio. Bell has offered general wage increases ranging from \$1.50 to \$4.00 weekly. Thomas Mitchell, CWA state regional director, said the proposal failed to match settlements in the steel, auto and rubber industries.

EVERY HIGHWAY IS "PASSABLE but DANGEROUS"

Such a warning is not alone for a road under construction or repair. It's any road—it's every road.

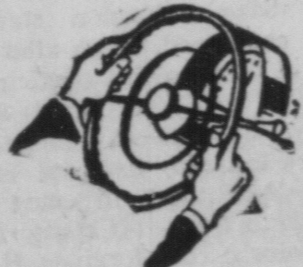

The "open road" is engineered for safety. Its curves, grades, over and under passes, and road markings are all designed for you to drive and live. But every road can be as safe or as dangerous as you and millions of other drivers make it. It's how you drive, how you respect road controls, speed limits, stop signs; how you think when you drive and how you use or misuse the courtesy of the road that determines the degree of safety or danger.

Since the end of the war, rural highway deaths have climbed until they account for three-quarters of the toll in dead and injured. In 1952, 28,200 deaths out of a total of 38,000!

Three of every four accidents occurred in clear weather on dry roads. Eighty percent of vehicles involved in fatal accidents were traveling straight ahead.

These are stark facts which put the terrific highway carnage straight up to the driver behind the wheel. A reckless, lawless attitude makes safe highways dangerous.

Ask yourself, honestly, "Am I a safe, or dangerous driver?"

Nation Has 5 Billion Dollar Surplus

# More Consumption, Less Production Tried As Cure To U.S. Farm Problem

By WARREN ROGERS, JR.  
(Last of a Series)

WASHINGTON (AP) — The world will beat a path to the door of the man who invents a solution to America's problem of farm surpluses.

It is a five billion dollar puzzle which has defied solution for nearly 30 years in its modern form.

There are people galore who think they have the answer. But among themselves they can't agree half the time on what the problem is.

What is the American farm problem? Its most distressing symptom today is the \$5,370,029,000 surplus taken off the farmer's hands by the government. But what's the cause?

"Too much production," says one school.

"Not enough consumption," says another.

If overproduction is the cause, the cure would seem to be in holding down production. The department of agriculture tries to do this by controlling planting and marketing under laws dating back to and beyond 1933 when the government paid farmers to kill their pigs and plow under their cotton.

Increased consumption is a goal too. The most notable success has been with the dairy surplus. The school lunch program pours tons of milk into school children who, in many cases, would otherwise have none. Melted down butter sent India as a gift is accepted as a delicacy.

America's farm laws are aimed at guaranteeing the farmer that, barring some freak of weather or bugs, he can count on a certain minimum return for his crop. That takes much of the guess out of a "by guess and by God" calling.

The laws do not discriminate among farmers. The top 2 million who produce half the country's farm goods by value get the same treatment as the 7 million who turn out 39 per cent, or the 12 million who live on the fringes of starvation.

The Agriculture Department reckons its support of the farmer in terms of purchasing power. It does this with a standard called parity, which one farmer once described this way: "If you can sell a truckload of wheat and buy with the money as much food, clothing, building materials, farm machinery, fertilizer and the like as you could in the five years, 1910-14, your wheat is selling at the parity price."

The 1910-14 base period has been brought up to date, but he had the general idea.

De'enders of parity say it does no more for the farmer than a wage contract does for his city cousins. Detractors decry it as an outmoded link with the past, a bar to incentive and efficiency and a breeder of government controls.

Charles Brannan thought he had a better solution than parity — pegged price supports. As secretary of agriculture in the Truman administration in 1949 he put his

plan to Congress this way: "Let prices go down if they will. Then let the government pay farmers a guaranteed annual cash income for producing our food. Thus consumers would get cheaper food, and farmers would get their income anyhow and everybody would be happy."

Congress was far from happy with the Brannan subsidy plan, especially his inability to say precisely how much it would cost. It was killed, but it left a lively ghost.

Secretary of Agriculture Benson announced Aug. 13 a kind of subsidy plan for cotton starting after next Jan. 1. Last April he put subsidy payments in effect for wool and mohair, trying to build up the industry.

Still the subsidy vs. supports battle roars on. Every now and then a man like Sen. Eastland (D-Miss.), himself a farmer, steps into the middle of the fray with an idea to deal with a particular product.

Eastland came up this year with what he called a "bold new plan" for cotton. In essence it was to lower cotton supports from 90 to 80 per cent of parity, increase allotted acreage from 18 million to 23 million acres and sell surplus cotton on the world market at going prices.

Eastland also is pressing for legislation which would raise the standard of cotton eligible for supports. If accepted, that would discourage production of low grade cotton which makes up the bulk of the U. S. surplus.

Any such talk of pushing U. S. surplus cotton on the world market brings howls from inside the country as well as abroad. Textile firms fear imports of goods made from such low cost U. S. cotton. Some U. S. investment firms have millions tied up in foreign cotton with which it would compete.

Secretary of Agriculture Benson left last Sunday for Western Europe to try to explain the surplus program and perhaps make some sales.

The head of a U. S. farm delegation which visited Russia said last week an active effort should be made to open up the Soviet market. W. V. Lambert, dean of agriculture at the University of Nebraska, told the Washington Press Club "the time is ripe" for disposing of the U. S. surplus on a "huge" Soviet market.

Secret Of Long Life To Be Sought

## Ex-Marshall, 95, Indian, 114, To Be Studied By Scientists

PERKINS, Okla. (AP) — Frank (Pistol Pete) Eaton, 95-year-old former Indian territory marshal who was sure death on outlaws, and his 114-year-old Indian sidekick are going to hit the trail again.

But this time it isn't to keep law and order — it's to help out Denver scientists who want to know the secret of their long life.

Uistol Pete doesn't think he'll be much help but he's willing to try. After all, a trip breaks the monotony for the former lawman who still carries his .45 with 10 notches on the butt, just in case.

Shucks, I just eat everything anyone puts in front of me, any time of the day and don't worry," Pete explained today. There are probably lots of folks who do the same and don't live nearly so long."

Eaton and his durable Indian friend Chief Big Bear Two Hands plan to go to Denver next week. Eaton doesn't recollect who the folks are out there who want to see them, but says Jesse James III, who claims to be a descendant of the famed outlaw, arranged the trip.

They're just some fellers who want to ask us what makes us live so long," Eaton said.

Chief Big Bear Two Hands is the oldest member of the Iowa tribe and believed to be the oldest Indian in the country.

Both old-timers knew Jesse James. The chief said he scouted

## CIO Petitions To Hike Benefits May Not Have Enough Signers

COLUMBUS, Ohio (AP) — Ohio CIO petitions to put the issue of increased state unemployment benefits up to the voters may lack sufficient valid signatures, it was reported today.

With 13 of 85 counties still to be heard from, incomplete returns in the office of Secretary of State Ted W. Brown indicate:

The number of valid signatures on the CIO Council supplemental petitions will either fall very short or just go over the needed 77,934 to put the proposed law on the Nov. 8 ballot.

The supplemental petitions were filed by the council after the recent Legislature failed to act on the CIO initiated law to raise unemployment benefits from \$30 to \$50 a week. The Legislature raised the benefits to \$33 a week.

Brown sent the CIO's 5,989 supplemental petitions containing 132,251 signatures to 85 county election boards to check their validity.

These signatures had to be from persons who did not sign the orig-

inal CIO petitions by which the initiated bill was sent to the Legislature.

Supplemental petitions with about 11,000 signatures were immediately invalidated here after Brown said each contained names of persons from more than one county. State law forbids one petition to carry signatures from more than one county. This is to facilitate ease of checking them.

Besides increasing unemployment benefits, the CIO's proposed law also would increase the length of payments from 26 to 39 weeks and raise dependency allowances from \$6 to a maximum of \$9 a week. It would make it possible for benefits to be paid while a worker is receiving lay-off pay from his employer.

So far, an unofficial count of signatures already certified and returned to Brown by election boards show 61,363 valid and 31,452 invalid. This averages out to about 66 per cent validity.

If the same percentage holds true on the outstanding signatures, this would produce slightly more than 15,800 signatures. That number, added to the unofficial 61,363 valid ones, would bring the total to 77,163, or just short of the needed 77,934.

In that event, the CIO would have 10 days to get additional signatures to qualify the issue for the ballot.

LUMBERTON, N.C. (AP) — Police were looking today for a young man who ordered a wedding cake with a worthless check.

M. O. Navy, operator of a bakery here, said the man ordered a \$27, three-tier wedding cake for his "sister," and paid for it with a check for \$27.45. He asked to pay \$7 on account, and pocketed cash for the remainder.

The check bounced.

## Only Half A Parity Ratio

During July, the agricultural parity ratio dropped to 84. This figure represents the ratio of farm prices received to farm prices paid, on the assumption that perfect parity of 100 was attained during the four years immediately preceding the outbreak of World War I.

At 84, the farm parity ratio is lower than it has been at any time before the outbreak of World War II — low enough to have prompted Secretary of Agriculture Benson to take note of it in his latest public address and to promise a higher level of farm prices. During and after World War II, the ratio was in the farmers' favor and continued to be so until the Korean War ended; it soared to 115 in 1947.

There never has been a parity ratio for industrial workers, unfortunately. If such a ratio could be established, it would show the relationship between wages received to prices paid.

The cost of living index reflects prices paid. Since the period from 1947 to 1949 has been used as the base of 100 for the cost of living index and average weekly earnings in manufacturing during 1947-1949 were about \$53, a comparison might be made between those earnings and present earnings in manufacturing to show where wage earners were in 1947-1949—a ratio of 53.

The July weekly earning figure this year was a little more than \$75 on a national average. The cost of living index was a little more than 114. This is a ratio of 65. In 1947-1949, the same ratio was 53. There has been a net improvement of 12 points in the ratio for manufacturing employees while there has been a net deterioration of 24 points in the ratio for farmers during the same period.

That is the nub of the farm problem in 1955 — how to keep the farm population from being forced toward the sidelines in the relentless competition for an ever-larger share of consumers' dollars.

## Anyone Have An Idea?

The collapse of Ohio's axle-tax and the half billion dollar highway program it was going to pay for is in sight.

The Ohio Supreme Court ruling that the tax could not be collected from Michigan truckers because of a reciprocity agreement has been taken at its face value by seven other states that also have reciprocity agreements with Ohio. Among these are key states like Illinois, Indiana, Iowa and Wisconsin.

If they, too, refuse to pay Ohio's axle-mile tax, or stop its collection by abandoning their reciprocity agreements with Ohio, the tax is a dead duck. The trucking industry, which never wanted to pay it in the first place, will have won the fight to get rid of it.

But it will not be a mighty victory if Ohio's highway improvement program is scuttled. Unless someone jumps up with a better idea than the axle-mile tax and the governor gets the Ohio Assembly into a special session to adopt the idea as state policy instantly Ohio's road-improvement program will die on the vine. The only major improvement will be the privately financed Ohio Turnpike, which truckers will help to pay for with the equivalent of an axle-mile tax.

Fortunately, only a fraction of the bonds that could have been issued under the half billion program have been issued—about 80 million dollars' worth. Until the wherewithal to pay for the rest is in sight, the program will mark time. That may be forever. The people who have scuttled the axle-mile tax have made it plain they have the resources to block this new principle of taxation for road improvement according to weight carried and distance traveled.

## One To Remember

The way temperature and humidity have been dallying this summer, it is no wonder there has been a deafening silence about "hot summers we used to have."

Those of us who have been fortunate enough to survive the 1955 adversity of heat and humidity, can boast in years to come about the "hot summers we used to have."

"Honest sweat" is used with apologies to those arbiters of decorum who proclaim: "Women glow, men perspire, and only horses sweat." But such a definition is little solace to a human who has moisture dripping from nose, chin, ear lobes and fingertips.

Indeed, there have been days when it would have taken a Solomon to determine whether or not it was "honest sweat." For is it not true that both the safecracker and the safemaker sweat? It is more complicated than it was when Henry Wadsworth Longfellow in "The Village Blacksmith" wrote:

"His brow is wet with honest sweat,  
He earns what'er he can,  
And looks the whole world in the face,  
For he owes not any man."

## Mightier Than A-Bomb

## Moral Force Most Powerful Weapon In World

There's a big game going on in the world between the East and the West. Some call it the "cold war." Some call it "peaceful co-existence."

Others call it "The Geneva Era of Good Feeling."

The odd part of it all is that very few persons, except those who are on the inside of governments, know really what's going on and what the various moves portend.

Thus, some observers are convinced there'll be no war and that "an atomic stalemate" is in progress. Other observers argue that, because war can be more horrible than ever before, there is no alternative now except to negotiate and bargain and reach some agreement with gangster governments whose word has repeatedly been proved worthless, no matter what the pledges.

The big story of the age is not the stalemate but the ferment behind the stalemate. The big discovery is that peoples are slowly but surely becoming aware that they can control their own destiny. Once upon a time President Woodrow Wilson described the gradual workings of a people's will by the phrase — "moral suasion."

PRESIDENT EISENHOWER a couple of weeks ago in his speech to the American Bar Association at Philadelphia, had the same thing in mind when he referred to "peaceful change." He said:

"We must not think of peace as a static condition in world affairs. That is not true peace, nor in fact can any kind of a peace be preserved that way. Change is a law of life, and unless there is peaceful change, there is bound to be violent change."

This is the statement of a great truth. Though obvious, it is often overlooked. There is a tendency by the skeptics to demand simplified solutions. Thus, persons go to Soviet Russia and come back saying they didn't see any signs of unrest or possible revolution.

These things of course, are never uncovered to the naked eye. They exist in the hearts and minds of silent millions who at the opportune moment follow the leadership of a handful of courageous men.

The greatest fear of the men in the Kremlin today is of revolution in their midst. If they hesitate to go to war now, it's because the Red Army would reflect the rebellious feelings of the whole population, and a few army leaders could change the entire picture in a few hours.

THE SAME THING is true in any dictatorship country. Peron's troubles in Argentina aren't academic. They are due to a ferment inside his country. It's a kind of "peaceful change" and it is constant and unrelenting in pressure. Unfortunately, too many observ-

ers don't understand moral force. They reckon always in military terms. The presence of a huge military force in the West, and especially America's air power, is a big influence in preventing war, but the biggest is the unwillingness of the Russian people to be sacrificed.

The greatest danger is that war will come anyway because the Soviet rulers may take a chance and mistakenly believe they can hold their people together with an aroused patriotism. But an unpopular government in 1917 in St. Petersburg didn't keep the Russian armies who were fighting the enemy from making a separate peace with the enemy.

The policy of the United States today under President Eisenhower and Secretary Dulles is the most constructive this country has ever adopted. It calls not for the use of physical force — in fact, every effort is made to renounce or outlaw force except in case of attack — but for the exertion of moral force.

THIS IS THE persistent, steady, uninterrupted pressure through world opinion to convince peoples behind the iron curtain that their safety and their liberty can be best assured by following the doctrines of freedom proclaimed by the West.

The process may take years to achieve big results. It will require patience. There is no plan to precipitate a climax now. The United States has merely announced that it will not accept the "status quo." This does not mean it must bow to its enemies and strike a bargain. There is no more sense in our government bargaining with the gangsters of the East than there would have been for the sponsors of decent government in Chicago to accept a "modus vivendi" for rule by the Capone gang in one section of the city. Moral force means sticking to moral principles and holding out for the only kind of agreement that ever will be worth while — an agreement with a free government representing a people free to choose its own government without coercion of any kind.

THE PEOPLES of the satellite states know now that America has not abandoned them, that self-liberation is still regarded as a goal they can strike for. As long as America doesn't discourage the peoples behind the iron curtain or let them think they are to be forsaken, the influence of moral force will continue to permeate the entire area dominated by the Soviets until the dictatorship collapses from within by reason of the upward pressure of the people themselves.

That's the real alternative to a world war. That's why the "cold war," in which Russia is spending billions in propaganda, can't be permitted to be lost by default in a wave of confused optimism, wishful thinking, and craven willingness to make deals with gangster regimes.

## Personal Piffle

By TRUMAN TWILL

Whenever I think about apple-polishing, the standard technique of getting ahead, I wonder about Bernard M. Baruch, who has gained fame and respect by giving people unpopular advice they refused to follow.

It is hard for me to keep from thinking of ballplayers who sell beer, real estate, bonds and gadgets in the off-season as beer salesmen etc. who play ball while it's in season — and this could be one of the things hurting baseball interest.

Summer replacements on television strike me as being better in many cases than the more expert entertainers they replace, although I am aware of the difference between being brilliant in spurts and over the long pull.

I have made notes this summer on things that grow well without any rainfall, which apparently is the normal condition during most of June and all of August, and henceforth do not intend to plant anything else in May, when millions like me go on their annual horticultural kick.

Although I have no idea what is said or left unsaid to pupils at the beginning of each new school year, one thing needs to be said to the high school group — that millions of dollars have been invested and will be spent on overhead so they may have a chance to get an education and if they don't want it they should make way for those who do, because there is no room in the school system for those who can't use it.

If I had a chance to see Charlie Chaplin in one of his famous comedies, I could forget all about the mess he has made of things off-stage and laugh myself sick at his clowning antics.

If the Republicans don't care what Harry Truman says about them, they would be more convincing if they quit their practice of counterbalancing every time he blasts.

It has been more than 20 years since I have taken in the sights of a bathing-beach and I am not sure I could stand them if what I see in photographs is true.

"—Now No One Wants To Fight"

## One-World Idea

By GEORGE E. SOKOLSKY

The other day, I made a reference to Wendell Willkie, so I glanced through his published writings out of curiosity.

In 1943, Willkie had published a book called "One World." The phrase thereupon went into the language with various connotations.

Willkie himself attributes much to Gardner (Mike) Cowles, Jr., and to Joseph Barnes who accompanied him on the trip around this one world. He said of these two:

"They have been most generous and helpful in the preparation of material for this book. And though I am sure they would agree with many of my conclusions, they bear no responsibility for this expression of them."

IT SOUNDS LIKE a round-about way of saying that Mike Cowles and Joe Barnes, or one of them, did most of the putting down on paper. Joe Barnes had been very much interested in Russia, China and Japan, speaks Russian, has been a factor in the Institute of Pacific Relations.

But that is not what I want to write about. I want to call attention to a prophecy which Messrs. Willkie, Cowles and Barnes composed for this work, "One World":

"I believe that if Americans were forced to live hereafter face to face with an empire of such dimensions, our way of life would be little better than an armed camp, and our vaunted freedom would be little more than a fond hope. We should live in continual alarm, in endless war under crushing armaments which it would be our constant endeavor to increase. Neither peace nor prosperity, neither freedom nor justice, could flourish in such a struggle for existence."

WILLKIE'S REFERENCE was to Japan's conquests in Asia. He was prophesying as to what would happen to the United States in a contest with the empire that Japan

was carving in Asia. Those conquests have been liquidated by war.

What Japan tried to do and failed, Soviet Russia has thus far succeeded in doing. The prophecy holds today despite Japan's failure; it holds because Russia has succeeded.

We are living in a curious era and to understand it we have to revise much that we had believed we knew. Maybe it is dull work restudying history and geography and the struggle of ideas.

Maybe it is more interesting to read about such men as Sherman Adams and Estes Kefauver. But they do not affect our lives or the lives of our children as vitally as the vast and almost unfathomable historic changes which are passing before our eyes and which are so swift that often we are unable to see them.

MARSHAL FOCH, in lectures given in 1917, foresaw what the world faced when he said:

"Turly a new era had begun, that of national wars which were to absorb into the struggle all the were to be aimed no at dynastic interests, not at the conquest or possession of a province, but at the defense or spread of philosophic ideas first, of principles of independence, unity, immaterial advantages of various kinds afterwards."

## Sen. Knowland's Role

By RAYMOND MOLEY

It's a long way from the Golden Gate to London, but a visitor in either region is likely to encounter a good many questions about William Knowland, senior senator from California and leader of the Senate Republicans.

In England last spring I heard and read a good many versions about Knowland's attitude toward the Chinese Communist and our obligations toward the Nationalist government on Formosa.

This I could dismiss as the sentiment of a country eager for a full resumption of trade with China under almost any conditions, however humiliating. Moreover, the British, while generally friendly to the United States, always have a favorite American whipping boy. This year they have both Knowland and Nixon at that role; last year it was McCarthy; and for years before, it was Sen. Taft and ex-President Hoover.

In California, which has always seen China and Japan from an angle quite unlike that visible to the British, the prestige of Knowland is very high. In 1952 his majority over his opponent in the primary which decided the election was, as I remember something like 1,600,000. That is, as far as I have been able to learn, the largest vote of confidence ever given in the United States for a candidate for any office, excepting the presidency and vice presidency.

Californians are proud of their representation in Washington, which includes the vice president; the chief justice; Knowland; Thomas Kuchel, the junior senator; and an able and aggressive group of congressmen. It is seldom that a single state, except occasionally New York, has been so fortunate.

Criticism of a man as prominent as Knowland is inevitable, and there is some here in California. Two complaints are that he has been something less than assiduous in his attentions to his vast constituency, and that as leader of his party in the Senate he should

"They were destined to bring out the interest and faculties of each soldier, to take advantage of sentiments and passions never before recognized as elements of strength."

Unfortunately in the plethora of small matters, so fully reported in the multitude of media, we tend to miss the really big story of our age which is that ideas rather than countries are what we are fighting over.

IDEAS ARE OFTEN very dull and tiresome in their statement. Marilyn Monroe is more romantic and colorful than the fact that at the end of the Thirty Years' War, the German Empire consisted of 900 sovereignties. You say, "So what?"

Well, between 1648 and 1915, this number was reduced to 36. At the end of the Napoleonic Wars, only eight European countries held first rank; at the end of World War II, only five nations in the whole world held first rank officially and only three realistically.

Today, only two countries, the United States and Soviet Russia, are first-rate powers from a military standpoint and they are in a position to destroy each other.

There is indeed a movement toward "One World"—but what has that movement done to us, the people of the world? Willkie's prophecy gives an answer that is worth thinking about.

"It is true that downtown Brooklyn does not constitute a slum now, but take the 'Bums' away and the entire borough will constitute one" he declared today.

The attorney added that if federal funds can't be secured under the Housing Act, they can be obtained by simply moving the "Bums" to Jersey, and which would automatically classify all Brooklyn as a "distress area." With the fans booing Duke Snider, it would seem that Brooklyn needs a bigger ball park less than it needs a bigger zoo.

## A Decade Later

By HAL BOYLE

NEW YORK (AP) — How can America most help Japan to become prosperous and build up her armed forces to protect herself?

This is a major diplomatic problem today which Foreign Minister Mamoru Shigemitsu and his beautiful daughter are trying to solve during a visit here.

Shigemitsu, one of the friendliest faces the Japanese Empire has turned toward the United States in a time when it has felt friendship was important, had a leg blown off in Shanghai during the Japanese effort to pacify the Chinese.

Shigemitsu, convicted as a war criminal, is now again his nation's most popular political salesman in America.

Our situations do change. Ten years ago today, I wrote the following dispatch from the deck of the battleship Missouri:

"There were four tingling moments of high drama in the 18 minute ceremony during which Japan bound herself to lay down her arms unconditionally and bow to the dictates of the Allies.

"The setting was perfect—on the captain's promenade of this battleship, nicknamed 'Mighty Mo.' Allied ships ringed the Missouri in concentric circles of power. Outlined against the murky sky were dark green hills of a nation being occupied for the first time in its turbulent history.

"The first moment of drama came when Gen. MacArthur walked up the gangplank and moved across the deck with a stride lithe for a man of his years. You could feel the intensity of this man stimulate the crowd like a current of electricity. It was MacArthur's hour of a lifetime, and he had prepared for it by almost half a century of military service.

"The next moment of emotional impact was the arrival of the Japanese delegation—four in civilian dress, seven wearing navy or army uniforms. They stood awaiting MacArthur's pleasure like stone gargoyles.

"Their stolid features showed neither guilt nor regret, pain nor resentment — only an abiding, watchful, animal-like patience. You felt that only time would reveal what the patience stood for.

"How did those little men ever think they could get away with it?" one white-uniformed sailor whispered.

"The third highlight came when MacArthur began signing the surrender documents. He turned to Gen. Wainwright with a warm smile and handed him the first of the six pens he used. Then he looked deliberately, steadily and coldly at the Japanese before going on with the signing. That gesture was for Bataan, for Corregidor — and the Japanese caught its significance fully.

"Silence fell over the spectators as the two Japanese signatories put their names to the documents. They signed with Oriental slowness. Doffing his black silk top, Foreign Minister Mamoru Shigemitsu sat with his wooden leg stiffly extended before him. The diplomat missed the inkwell with the first thrust of his pen. Then he laboriously scrawled his name on both documents — a copy for the Allies, one for Japan.

"The right hand of Gen. Hoshiro Umezo, Japanese army chief of staff, shook slightly as he added his signature. Noting the rainbow row of ribbons on his dress uniform, an American spectator wisecracked: 'Whipped everybody but the United States.'

"The Allied signatories signed quickly, one after the other.

"Let us pray," said MacArthur, "that the peace be now restored to the world and that God will preserve it always. These proceedings are closed."

"The worldwide blood bath at last was at an end.

"Then came the spine-tingling climax. Forty-six great-winged superfortresses swept over the fleet like high graceful birds. And behind them roared the 3rd Fleet's

## Combine Sardines, Salad

The Bay Ridge section of Brooklyn, N. Y., has a large Scandinavian population. That's why it's a good place to go for smorgasbord, kippers and other delicacies Norsemen favor.

There we talked with Mrs. Matilda Johnson, born in Norway. She gave us two welcome recipes for those delicate sardines from her native land. She said that her Irish son-in-law, a Dodger fan, is a fan for her Norwegian summer salads, too. So everyone is happy in Bay Ridge.

**Norway Sardines and Cooked Vegetable Salad**

To prepare 8 portions, use 1 pound of each of the fresh vegetables, or if you prefer canned vegetables, use 2½ size cans. One (3¼-ounce) can Norway sardines, green peas, carrots, sliced; whole baby string beans, baby Lima beans, 4 radishes, crisp lettuce leaves, mayonnaise.

If fresh vegetables are used,

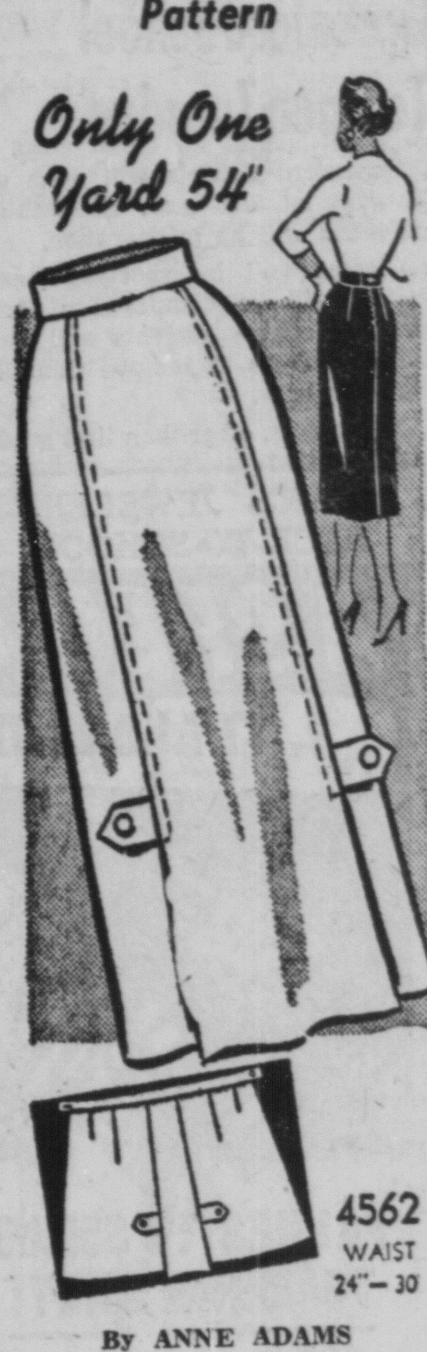

cook and allow to cool. Make a bed of lettuce leaves in a bowl and arrange cooked vegetables on lettuce separately. Decorate the salad with a cross of whole Norway sardine, which will also serve to divide the vegetables. Arrange 4 radish rosettes in the center. Serve with mayonnaise on the side.

**Stavanger Salad**

One (3¼-ounce) can Norway sardines, 3 tomatoes, 3 hard-cooked eggs, 1 stalk celery, diced; half head of lettuce, shredded; 3 green olives, salt and pepper to taste.

Drain oil from sardines and mash all but 12 of the sardines. Blend mashed sardines with diced celery and season to taste. Split tomatoes in 4 parts, slicing them from top to about ¼ inch from the bottom. Fill the tomatoes with the sardine-celery mixture. Garnish tomatoes with the remaining whole sardines and top with green olives. Cover serving dish with shredded lettuce. Arrange tomatoes on lettuce bed with sliced hard-cooked eggs. Top tomatoes with dash of mayonnaise, or serve mayonnaise on the side.

Note: A 3¼-ounce can of Norway sardines contains an average of 20 to 22 sardines.

## Courthouse Dome Being Repaired, Painted

Justitia, the Roman goddess of justice on the Columbiana County courthouse at Lisbon, is due for a beauty treatment before Warren steeplejacks complete the renovation of the copper-sheathed dome. She stands 120 feet above the Public Square.

V. E. Fickes, contractor for the \$3,000 project, is shown beside the blindfolded statue as his son, Bill, clambers down a rope to the tower platform.

The blindfold is the traditional symbol of impartiality along with the scales for weighing the guilt or innocence of mankind before the bar of justice.

The old girl, who stands 5-foot-8½, will also be visible at night as Fickes is installing a railing around the dome to hold electric lights for night illumination. A door will be constructed so the roof can be reached to replace burned out bulbs.

Fickes and his two sons, Larry and Bill also are reinforcing the dome structure, using lumber from carriage cases purchased at the Ravenna Arsenal.

# American League Standings Change Very Little In August

## Cleveland Held Largest Lead Of 2 Games Over Chicago, NY

By ED WILKS  
The Associated Press

For all the huffin' and puffin' they did during August, the three leading contenders for the American League pennant might just as well have taken a month's rest. It just didn't do 'em no good, no how.

For the past 32 days, Chicago, Cleveland and New York (all idle yesterday) have been scraping to a standstill. Going into the final 3½ weeks of the season today, they're practically in the same spot they were Aug. 1.

On that date Chicago was in first place with a .614 percentage. Cleveland and New York trailed with .603, each one game behind. Today Chicago leads with a .608 percentage. Cleveland and New York half a game behind, are tied for second with .603.

The only difference between them is that the White Sox, catching up in games played, had one more game than the Yankees and Indians and lost it.

For the month New York was on top 13 days, Chicago 12 and Cleveland 5. The Indians, who also shared the lead for a day with New York, had the biggest August lead, two games. The Yanks led by 1½, Chicago by one.

And with Chicago's Marty Marion and Cleveland's Al Lopez agreeing all the way, Yank Manager Casey Stengel says it's just "too awful even."

"All I know is," says Case, "that we have 23 more to play and must win 18 to make sure. I realize that's 97 wins, but that's what it will take. I thought before it could be done with 94."

The Yanks were in the best position to get off quick on their way to 97. They opened a home stand this afternoon with the Washington Senators, whom they've beaten 11 times in 16, while the White Sox and Tribe go at each other in the first game of a four-game series at Cleveland tonight. The Sox and Indians are 8-8 for the season.

The only action yesterday was in the National League, where Brooklyn made the most of seven hits to thump Milwaukee 6-3; Cincinnati defeated New York 7-4; and Pittsburgh again edged St. Louis 7-6.

The Brooks got their hits in the third and fifth innings to score their runs. Roy Campanella singled home two runs and scored another as Brooklyn trimmed the magic number to 10—any combination of 10 Dodger victories and Milwaukee defeats gives the Brooks the flag.

Joe Nuxhall won his 15th—most by a Cincy hurler since Ewell Blackwell won 16 in 1951—while seven-hitting the Giants. He gave up two homers to Dusty Rhodes and one to Al Dark, but drove home two runs himself while Chuck Harmon batted in four with a home run and a single.

The Pirates, now just 2½ games shy of seventh place St. Louis after spending the last three years in the cellar, won their sixth straight with Gene Freese knocking in the clincher in the ninth to break a 6-all tie. Ramon Mejias had four RBIs with two doubles and a single for the Bucs.

## Chubby Costa Favored Over Bobby Bell

NEW YORK (AP)—Carmelo (Chubby) Costa is a 2-1 favorite to beat Bobby Bell in their "rubber" bout tonight and keep alive his chances of getting a title crack at featherweight champion Sandy Saddler.

The Madison Square Garden 10-rounder, starting at 9 p.m., CST will be broadcast and telecast by NBC.

Saddler hasn't defended his crown in over six months and Costa, a flashy 21-year-old from Brooklyn, wants the next chance.

"Chubby has the style to beat Saddler," said manager Steve Paris, who does all the talking for his shy fighter. "He'll box rings around Saddler, who's ready to be taken."

Bell can gum things up like he did once before to Costa. The 26-year-old ex-soldier from Youngstown, Ohio, is one of the two featherers to whip Costa. Rudy Garcia was the first.

The two defeats came in succession last year, a busy year of 10 fights in which Carmelo rose from the prelim ranks to the main event class. Garcia won Oct. 25 and Bell Dec. 6.

Costa took a vacation and then came back to avenge his loss to Bell Feb. 21. He beat Joey Lopez, drew with lightweight Tony Puleo and outpointed thoroughbred Lulu Perez. His record is 26-2 with 4 draws.

An indifferent performer until he went into the Army, Bell has shown vast improvements since his discharge. He has dropped only one (to Costa) of 11 fights in that time. His record is 36-21-4.

**MAJOR LEAGUE STARS**

Pitching — Joe Nuxhall, Redlegs, scattered seven hits and walked only two while beating Giants 7-4 and gaining 15th victory, most by a Cincy hurler since 1951 when Ewell Blackwell won 16.

## Nashua's Trainer Little Surprised

Thought Swaps Would Take Early Lead

NEW YORK (AP)—Sunny Jim Fitzsimmons, 81 year old dean of American trainers, admitted today he was really surprised when Nashua stepped away from Swaps at the start of their match race at Washington Park Wednesday.

"From what I had heard I didn't think my horse could outrun Swaps," said Mr. Fitz on his return from Chicago, where Nashua won by 6½ lengths. "I knew Nashua could break fast if necessary but from what they told me I thought it would be Swaps first out of the gate."

Mr. Fitz was not on hand when Swaps set practically all of the pace in beating Nashua by a length and a half in the Kentucky Derby early in May.

"Actually, I didn't care if we got to the front at the start," the veteran trainer continued. "Eddie (jockey Arcaro) and I agreed it would be the best if he could get right to the front but if he couldn't then I told Eddie to keep that other horse busy."

Nashua came out of the gate with Arcaro playing his whip vigorously. The William Woodward colt went right to the front and never was headed.

Mr. Fitz expressed regret on hearing that Swaps had turned up lame. He said he hoped the two horses would meet again in the course of the regular racing season this year. Nashua's next start probably will be in the \$100,000 added mile and one-eighth of the Synsony at Belmont Park Sept. 24.

## Salem Gridders To Scrimmage With Boardman

Coach Ben Barrett's Quakers, completing their second week of practice, meet the Boardman Spartans Saturday morning at 10 a.m. in a scrimmage session at Reilly Stadium.

Coach Pat Mancuso's Leetonia Bears downed the local gridders in a session yesterday morning at Leetonia. Barrett said that the Leetonia squad was all "fired up" over the scrimmage. Mancuso led the workouts filmed, Salem coaches reported.

Although Leetonia found little opposition in the Salem line, Salem was able to score five touchdowns against the Bears. Junior quarterback Skip Yeager handled the local team most of the time and threw several passes to Captain Herb Haschen at the left half slot for TD's.

Barrett used Willie Schuster at the right half position with Jack Alexander running at the fullback slot. "Our guards and tackles are hurting us," Barrett said this morning. "They have no experience and once we get them in shape we'll be all right," he added.

From the looks of things now Yeager will be the Quakers first string quarterback. Soph. Moe Meissner has been working out at the position and Barrett indicated that he would see plenty of action. There are two other quarterbacks on the team, Ted Jackson and Joe Bryan, both of whom will get their share of practice workouts.

The middle of next week the team will be forced to cut practice sessions to one a day as school gets under way.

Salem fans will get their first opportunity to see the locals in action under actual game conditions in a preview game against East Palestine at East Liverpool's Patterson Field next Friday night.

Six Columbiana County teams will take part in the preview session sponsored by the East Liverpool booster club.

Pre-game festivities will start at 7:45 with the first game between Leetonia and Wellsville getting underway at 8 p.m. Salem and East Palestine meet in the second game with the host Poters facing Lisbon in the final.

Salem opens the 1955 season against the New Philadelphia Quakers Friday night, Sept. 16, at the Salem stadium.

Demings outthrew and outscored Mark's in the first game of their playoff series. The winners tallied seven runs on four hits with Eddie Duco leading the attack with three.

## Lopez To Start Maglie Tonight

Tribe Opens 4-Game Series With Chicago

CLEVELAND (AP)—A surprise choice Sal (The Barber) Maglie, hurls tonight for Cleveland as the Indians take on the Chicago White Sox in the opener of a four-game struggle for the American League's first place.

It will be Maglie's first start in Cleveland since his sale by the New York Giants a month ago. The 37-year-old right-hander made only one start for the Tribe, a 7-5 loss in Washington.

Facing the Barber will be Connie Johnson, who pitched a 6-0 shutout against the Indians last July 9 in Chicago.

The White Sox, leading both the Indians and the New York Yankees by half a game, will be starting a 19-game tour of the circuit.

They have only five home games remaining—two with the Tribe and three against Kansas City—all to be played the final week of the season.

Cleveland Manager Al Lopez said he picked Maglie because he wanted a curve-ball specialist to go against the Sox.

Up to now Cleveland and Chicago have divided 16 games, the Indians winning four out of seven at home. In the past two seasons, they have finished with 11 games apiece.

Early Wynn is slated to pitch for the Indians tomorrow and Bob Lemon and Mike Garcia in a double-header Sunday.

In the final three games, the White Sox are expected to send Billy Pierce, Jack Harshman and Dick Donovan to the mound, though the order they will follow is not yet certain.

Maglie has been scored on only once in six relief appearances. The culprit, again, was Washington—juicy picking for almost everyone except the Indians—against whom the Yanks open three tonight.

Johnson will be seeking his seventh victory against three defeats.

About the White Sox' pennant-winning chances, Manager Marty Marion said last night before leaving Chicago:

"We feel we'll win it, and it doesn't make any difference whether we're at home or on the road."

After the series with Chicago, the Indians play a doubleheader on Labor Day with Kansas City. Three games with Detroit Sept. 16, 17, and 18 will complete the Tribe's home schedule, while 14 games remain to be played on the road.

Herb Score and Bob Feller will take the mound against the Athletics.

Larry Doby, benched the past eight games because of a pulled leg muscle, is expected back in the lineup tonight.

Also in uniform will be three farmhands, infielders Rudy Regalado and Billy Harrell, both from Indianapolis in the American Association and Bud Daley, a southpaw from Sacramento.

## 49ers To Have 2 Rookies In Backfield Against Cardinals

By CHRIS EDMONDS  
MORAGA, Calif. (AP)—The man said, a long time ago, that he figured exhibition games should be used as testing grounds for rookies — and he still means it.

Coach Norman (Red) Strader of the San Francisco 49ers repeated his belief again today and in the same breath announced he was giving Dicky Moegle, the All-America from Rice Institute, a

shot at the left halfback spot in Sunday's pre-season tilt with the Chicago Cardinals.

Moegle hasn't had a chance yet to show what he can do with the ball when we have it," Strader said. He's going to get the chance Sunday.

That means, of course, that somebody has to give in the 49ers' backfield — and the somebody in this case is John Henry Johnson who will move over to the defensive unit into Moegle's vacated left wingback slot.

Strader's decision means further that the 49ers will go into action against the suddenly red-hot Cardinals with freshmen at both halfbacks. Carroll Hardy, fresh out of Colorado, will work at right half in place of the still injured Hugh McElhenry.

The Cardinals, who have surprised with triumphs over both the Chicago Bears and Detroit Lions in earlier outings, will present a backfield which should look familiar to West Coast fans.

Ollie Matson, the old University of San Francisco flash, has been moved to halfback where he's teaming with Dave Mann, onetime Oakland high school star who later played at Oregon State. At fullback will be Johnny Olszewski, the battering bear from California.

The Cardinals are counting heavily upon sophomore Lamar Mc Han to handle their quarterbacking.

## Montreal Leads International League Race

A rained out game may cost the Toronto Maple Leafs a chance to tie for the International League pennant.

Montreal's 4-3 victory over Columbus and Toronto's 2-1 loss to Havana in 11 innings last night put Montreal into first place by a half-game. The difference is in the games won column, where Montreal has 90 to Toronto's 89.

League Secretary Harry Simmons announced yesterday that the rained out game can't be squeezed into the International League schedule, which ends next Monday. Thus, if Montreal keeps on winning, Toronto won't be able to catch the Royals.

Simmons also announced that in the event of a tie, the pennant would be decided in a one-game playoff. But in view of the Toronto rainout, only a similar rainout of a Montreal game would make a tie possible.

Rochester just about wrapped up the fourth playoff spot by beating Richmond 2-1, but Syracuse kept its faint, mathematical chances alive by beating Buffalo 4-1. Rochester, with a 4½ game edge over the Chiefs, has six games to play and Syracuse has five remaining.

## Nation's Top Golfers Set For Tourney

WETHERSFIELD, Conn. (U)—Several of the nation's top golf professionals, among them Sam Snead, have more than prize money at stake today when they tee off in the \$20,000 Insurance City Open.

They'll be scrambling for points that mean berths on the 10-man U. S. Ryder Cup team, which will be selected after the final round on Monday.

Play in the fourth annual tourney got under way over the par 35-36 Wethersfield Country Club course this morning.

Snead, of White Sulphur Springs, W. Va., the man with the erratic putter, seeks a spot on the Ryder Cup Team for the fifth straight year.

Doug Ford, Yonkers, N. Y., this year's PGA champion, and Chick Harbert, Northville, Mich., the 1954 PGA titlist automatically qualify for the Ryder Cup squad which meets a British team in the annual event.

Harbert is not entered in this tournament.

Assured of Ryder Cup berths are Cary Middlecoff, Tommy Bolt, Ted Kroil, Jerry Barber and Bob Toski. All except Middlecoff are entered here.

Snead, with 400 Ryder Cup points is behind Toski in the Ryder standings.

Close behind him are Jacko Burke, Klamath Lake, N. Y., 396; Marty Furgol, Lemont, Ill., 392, and Chandler Harper Portsmouth, Va., 388, all entered here.

## Canfield Racing To Resume Sept. 10

Stock car racing will resume at the Canfield Speedway Saturday night, Sept. 10, with an eight-race sportsmen division card.

There will be no racing this Saturday night because of the annual Canfield Fair.

All of the top drivers in the MARC circuit will be back in competition here when action resumes.

Manager Charlie Findlay has also billed another big new car race, featuring a 100-lap duel on the quarter mile track Sept. 17.

More 1953 models and more convertibles are sending entries for this outstanding card, easily the biggest of the season, at the Canfield oval.

## Browns, Rams Meet In Exhibition Tilt

LOS ANGELES (U)—Two rookie stars will adorn the starting lineups tonight when the world champion Cleveland Browns and the Los Angeles Rams play an exhibition National League football game in Memorial Coliseum.

Coach Sid Gillman of the Rams said Ron Walker from Maryland, the club's second draft choice, would start the game at right halfback.

Paul Brown, master of the Browns, nominated Bob Smith from Nebraska for the left halfback position, taking over from veteran Ray Renfro, temporarily.

Otherwise, the teams will lead off with their regulars, with Norman Van Brocklin at quarterback for Los Angeles and George Ratterman at the same spot for the Browns.

Confederation of Labor (CGT) in the House, said the state of siege would last "as long as necessary—until we eliminate the last danger of troublemakers."

The government proposal provoked an uproar from the 12 Radical party members, the only opposition in the House. Radical Deputy Santiago Carlos Fassi charged that Peron's speech proclaiming reprisals against his opponents Tuesday night tends to "incite to crime and destruction," but he was drowned out by Peronista deputies chanting "Peron, Peron!"

## Fair Attendance To Top 500,000

### Lausche Talks On Water Supply Problem

COLUMBUS, Ohio (AP)—The 1955 Ohio State Fair—one of the nation's top agricultural showpieces for cattle and sheep—winds up today with total attendance for the eight-day exposition expected to reach the half million mark.

Last year's attendance was 412,959. By Wednesday, the 1955 attendance of 425,420 had already passed last year's total.

Visitors will be admitted free after 3 p.m. today, and exhibitors are under orders to maintain their displays until 6 p.m.

Topping the agenda will be afternoon stock car races for the state championship, and final judging of female classes in the National Red Poll Cattle Show.

There'll also be awarding of championship stakes in the night horse show, night wrestling, a fashion show, junior fair sheep shearing contest and FFA and 4-H demonstrations.

Yesterday was Governor's Day at the fair, and the chief attraction was Gov. Frank J. Lausche. His tour of the fairgrounds included talks, presentations and an inviolable "hello there, welcome to the fair" greeting to all he met.

In a radio talk, Lausche spoke of Ohio's "acute problem" of water supply and its adverse effect on agriculture. He outlined six possible future steps to curb the situation. These were:

Scientific farming, elimination of stream pollution, creation of more interior lakes, expansion of farm ponds, tightening of strip mine laws and a study of piping Lake Erie water to the Ohio interior. Lausche spoke of one project he said he was "fanatical about." "I'd plant trees all around the fairgrounds so the farmer could come with his family and a basket lunch, and it would be like coming to a picnic."

The governor lunched with his cabinet, then attended harness racing. He awarded the Governor's Cup for three-year-old trotters to Silver Field, a gray colt which took most of the \$5,000 prize money. Silver Field, owned by Mr. and Mrs. C. A. Faulder of Sidney, won two of the three deciding heats.

In the annual Fat Cattle Sale, which the governor opened, 594 head of cattle, averaging 1,026 pounds apiece, were auctioned off for an average of just over 25 cents a pound.

There were 192 entries in the National Red Poll Cattle Show in which twin 31-year-old brothers, James and John McKee of Washburn, Ill., took the grand and reserve champion titles with their two and three-year-old bulls, respectively.

Top ribbons in the National Oxford Down Sheep Show went to I. H. Kemmerly & Son of Wharton, who captured the national grand champion ram and ewe crowns. The reserve titles were won by Crandell & Ludlow, Cass City, Mich.

Dennis Lammers, 16, of New Knoxville, took most of the honors in the 4-H Brown Swiss Show, a junior fair cattle event. With three entries, he captured the grand champion of show title after winning first places in the 2-year-old and 3-year-old cow classes and the Brown Swiss calf event.

### Anyone Lose A Few Hundred-Dollar Bills?

PIQUA, Ohio (AP)—Anybody here lose a few hundred-dollar bills lately?

Former Postmaster Josiah Eickenberry and his wife of nearby Laura found five of them on the floor of their car eight days ago. So far, no claimers.

The Eickenberrys made their surprising find the night of Aug. 24 when they returned to their auto in a parking lot at the Darke County Fair.

They told fair officials the money was wadded up in what first appeared to be a package containing the scraps of someone's lunch. They said they came near throwing the "lettuce" away before deciding to open the package for a closer examination.

carnival workers have started to pass the money.

Bobby Greenlease, 6, was kidnapped Sept. 28, 1953, and killed by Mrs. Bonnie Heady and Carl Austin Hall. They were executed.

Only about half the \$600,000 ransom money was recovered. Policemen Louis Shoulters and Elmer Dolan of St. Louis, who arrested Hall and Mrs. Heady, contended they turned in all the money they found in Hall's luggage. However, they were convicted of perjury and were sentenced to prison.

### Columbiana County Jail Work Progressing

LISBON — Brick work on Columbiana County's new \$230,184 jail is expected to be completed in "nine working days," according to W. H. Nellis, jail superintendent for the Nellis Construction Co. of East Liverpool which has the contract.

Target date for completion of construction work on the new jail is Oct. 31. County prisoners now housed in city jails in the county and Stark County Jail are expected to be moved in "around the first of November." Installation of jail equipment is slated for Oct. 10.

A basement runs under the jail, and the main cell block already completed, is on the first floor. The section adjoining the cell block will have two floors.

The jail is expected to be dedicated just after the first of the new year, according to Walter A. Hunston, president of the county commissioners.

### Executed Murderer Gives Own Funeral Talk

MESA, Ariz. (AP)—An executed murderer delivered his own funeral message Thursday — by tape recording.

About 450 persons at the First Baptist church heard Lester Bartholomew's voice ask "all of you who are my friends, and those near to me" to "get right with God."

In the message recorded in death row, he said: "Having faith will get you right with God. Adopt him as your Savior now. Don't wait."

"I hope to see all of you in Heaven. 'Bye-bye, now. Bye-bye.'" Bartholomew died in the gas chamber Wednesday for shooting his wife and two children at their Phoenix home May 28.

### Will File Appeal In Prisoner's Release

LISBON — Harold W. Jasnau of N. Georgetown, parole officer from the state's Canton office, said today he will file an appeal in the release of Phillip Sole of RD 1, Wellsville, found guilty Feb. 14, of "taking, driving and operating a motor vehicle without the owner's consent."

Sole, taken into custody Aug. 1 after he had been freed on \$500 cash bond from Feb. 14 until that time, has eight parole violations against him, Jasnau said. Sole was paroled from Michigan State Prison in 1952 after serving two years of a 2-4 year sentence.

The Wellsville man's case was heard Thursday by Common Pleas Judge Joel H. Sharp who ordered Sole released from jail on a \$500 cash bond until Sept. 23 if he gets a job.

Judge Sharp continued the case when the parole officer failed to appear. Jasnau said he was not notified in time for the hearing.

### NEARS FLOOD FUND GOAL

leaders a clue to his plans. But the general expectation is that he will wait until next spring before announcing whether he will run again.

James C. Hagerty, White House press secretary, said the Denver conference and the earlier Washington session were being arranged to improve GOP campaign techniques, stimulate organizational activity and broaden political action to create greater enthusiasm among party workers.

Meanwhile, the vacationing President continued to take it easy—with official business kept to a minimum.

Thursday evening he enjoyed getting together at a downtown hotel with a group of men with whom he frequently plays golf at the Augusta National Club in Georgia. He stayed overnight in the hotel's Presidential Suite instead of returning to the home of his mother-in-law Mrs. John S. Doud.

The group planned to golf today at Denver's Cherry Hills Country Club, and to stay on here as the President's guests over the Labor Day weekend.
